Subject: RE: OVC Pond 13 Data

Hi Abbot,

Both ponds were out of compliance with respect to our Fe, Total limits. I will fax you the results. I also will check on the sampling station but it will probably be in a day or so. We will request one if it doesn't already exist.

Best wishes
Linda

Subject: OVC Pond 13 Data

Dave and Linda,

Based on the data OVC submits to us, pond 13 has only violated the iron limit once since 2000, in Jan of 2005. Do you have easy access to data for this pond (both samples you took and they took)? Does your data agree with ours? Also, I see from 1501:13-4-14(F)(2) that they are supposed to sample "upstream" of the discharges. Would you happen to have a Captina Creek sampling station, upstream of Perkins run? If not can you require one? I'm working on my inspection report from our 3/5/08 inspection. Linda - I will send you our sample data for ponds 10 and 13 for that day. -Abbot
